

# Transforming lives

Join the world's leading civil engineering institution

[ice.org.uk/join](https://ice.org.uk/join)

# The mark of excellence

ICE is the world's leading civil engineering institution.

Our professional qualifications – Engineering Technician, Incorporated Engineer and Chartered Engineer – command respect. Whether you're a student, apprentice, graduate or experienced engineer, we offer extensive support to help you realise your potential.

Beyond these, ICE Fellowship is the ultimate mark of distinction and ICE Associate membership offers opportunities to professionals working across the built environment, including digital engineers, architects, surveyors and procurement experts.

Having recently celebrated our 200th anniversary we now look forward to the next 200 years and are more committed than ever to helping our members make a real, positive difference to society and shape our world for the better.

Around the world, across the built environment and at every stage of your career, ICE will be your partner for a successful and rewarding career to transform lives.

**Civil engineers transform lives.  
We'll help transform yours.**

# Your platform to succeed

Join ICE to access a host of benefits:

- Enhance your status with our internationally-recognised professional qualifications of Engineering Technician, Incorporated and Chartered Engineer, and by attaining Fellowship status

# Fellow – FICE

Receive recognition for the significant contribution you have made to society.

**Fellowship shines a light on you and your achievements as a leader in the profession.**

Not only that, you will be an ambassador of the profession who can shape the future of the institution and industry.

As a Fellow you will:

- Increase your status amongst your peers, your workplace and network
- Achieve greater influence by shaping the future of ICE and the industry
- Be a role model by joining our mentoring scheme and passing on your knowledge to the next generation
- Share your wealth of expertise and knowledge with the wider built environment profession through conferences, publications and seminars

**Being a Fellow gives me an 'inner warmth'. I am appreciated by my peers and it is a vindication of my work.**

**David Loe CEng FICE**  
ICE Fellow

Applying for Fellowship is straightforward and you don't have to be a member to apply.

Recognition. Influence. Giving back.  
Get your stamp of success today:

# Associate member – AMICE

Gain access to the people, thinking and resources of a world class institution.

## ICE membership puts you at the beating heart of the built environment.

From engineers to academics, procurement and legal experts to architects and surveyors, ICE convenes leading professionals to shape the infrastructure of the future.

As an Associate member you will:

- Access a melting pot of knowledge, ideas and insight
- Build business and social contacts among ICE's worldwide membership
- Improve your understanding of the role of other professionals in the built environment, helping you to manage and lead successful teams
- Use the post-nominal letters AMICE as a mark of distinction, linking you to the world's oldest and foremost civil engineering body

**The benefits of becoming an Associate member of ICE are far reaching; not only in terms of my own professional development, but my place in the wider built environment.**

**David McNeice AMICE**

ICE Associate member, Solicitor

Better, agile cross-functional teamwork and a greater understanding between allied professions are key to successful project delivery in a rapidly evolving industry.

# ICE and your organisation

Organisations value the commitment to professional excellence that ICE members bring.

**Around the world, ICE is the institution of choice for employers.**

We work closely with colleges, universities and industry employers who share our commitment to professional excellence and lifelong learning, helping you to stay ahead of your competitors.

Organisations gain a real competitive advantage by partnering with ICE:

- Our professional qualifications demonstrate the competence and expertise of your workforce, giving clients confidence in your ability to deliver projects
- Distinguish your organisation as a class-leader in professional development. Your commitment will aid the recruitment and retention of the brightest minds
- Unparalleled knowledge resources support our members' lifelong learning and ensure your organisation is at the forefront of industry innovation
- As part of our global built environment community, members share best practice to help ICE lead the debate on the big issues in infrastructure
