# ICE membership – the mark of excellence

**ICE membership is the key to professional success. It provides international recognition to employers, clients and your peers.**

The ICE's professional qualifications for civil and infrastructure engineers and technicians demonstrate a commitment to excellence and the highest professional standards.

Our support network, knowledge programme, industry insights, thought leadership, and networking opportunities will ensure you remain at the forefront of industry.

Belong to a community of 97,000 infrastructure professionals in over 160 countries and help shape a better, more sustainable and inclusive world.

## Your platform for success

### Membership gives you:

#### Professional status

A professional qualification from the ICE transforms your career. It proves you have the knowledge, skills and judgement to lead in infrastructure and earns you respect across the globe.

Whether as an Engineering Technician (EngTech MICE), Incorporated Engineer (IEng MICE) or Chartered Engineer (CEng MICE), our qualifications are trusted marks of excellence across infrastructure professionals specialising in civil, digital, environmental, low carbon, mechanical, electrical and process engineering.

In the UK, professionally qualified engineers earn an average of £7,000 more each year — and 68% of civil engineers already hold a professional qualification.

ICE Fellowship further marks out industry leaders and is an acknowledged badge of authority, earned by those who have made a significant contribution to the built environment.

Whatever stage you are at in your career, ICE membership helps you achieve your goals.

#### Lifelong learning

Enhance your professional development and remain at the forefront of industry with access to unrivalled support and resources throughout your career.

The institution has identified the core and specialist Continuing Professional Development (CPD) knowledge required annually and provides online training and learning modules to meet those needs.

Receive sector news and insight and gain access to the ICE Knowledge Hub, events, webinars, publications, training, and the world's largest digital civil engineering library.

#### Connections and community

Expand your network and career horizons by connecting with more than 97,000 infrastructure professionals in over 160 countries.

Connect with the ICE's local and global network and get advice and support from our regional teams throughout your professional journey.

#### A voice that shapes industry

The collective power of 97,000 members influences policymakers and shapes society. The ICE convenes, advises and supports decision makers in delivering beneficial, effective and sustainable infrastructure.

#### Support the profession

Enhance your professional skills and harness your expertise through a range of volunteering opportunities. Roles can include ensuring the future of the profession as an ICE Reviewer, inspiring the next generation as an ICE STEM ambassador, supporting members near you by joining a local ICE committee and sharing your knowledge at an ICE event.

#### Wellbeing and rewards

Enjoy exclusive money-saving discounts and offers from a variety of brands and retailers through ICE Rewards.

**Receive personalised assistance through the ICE Benevolent Fund and access resources for your wellbeing. If you have been a member for five years or more, you and your dependent family members can make use of Benevolent Fund services for life.**

I am a Graduate Member of the ICE, working towards becoming a Chartered Engineer. I want to be professionally recognised, and becoming chartered will show my ability and competency. Clients are confident when a professionally qualified engineer is involved. The ICE is a globally recognised body... This adds value to the individual member and opens up a larger pool of opportunities in different locations around the world.

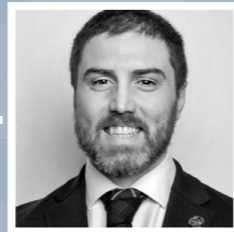

Andrew Ndungu GMICE

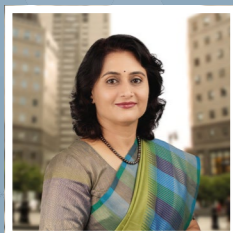

Gaining EngTech was a way to showcase my competencies and progress my career. Having a recognised professional status demonstrates my engineering skills and for me, this means gaining more roles and responsibilities within the workplace.

Karen Pollock EngTech MICE

Chartered Engineer status signifies not only a mark of excellence, but a mark of trust, opening doors to advanced roles, challenging projects and opportunities to influence the future of infrastructure and its engineers.

Chris Landsburgh CEng MICE

Fellowship means being recognised for my significance and sought out for my guidance, insight and expert advice.

Smita Sawdadkar CEng FICE

## Student Member

**Your free ICE student membership will boost your employment prospects, enhance your earning potential and open the door to a successful future.**

The ICE is here to support you throughout your studies and beyond.

### Student Member benefits:

- Professional growth.** Start working towards professional qualification as EngTech MICE, IEng MICE or CEng MICE to enhance your career prospects. Get access to a dedicated team of membership experts on hand to guide and support you. Document your progress towards professional qualification with our Attribute Achievement form.
- Wellbeing and rewards.** Explore potential grant opportunities to support your professional journey through initiatives such as the ICE QUEST scholarships. Receive personalised assistance through the ICE Benevolent Fund and access resources for your wellbeing. Enjoy exclusive money-saving discounts and offers through ICE Rewards.
- Lifelong learning.** Enhance your learning through a wealth of online resources, the ICE Knowledge Hub, the ICE's careers guide and keep current with industry trends through training sessions and thought leadership content.
- Connections and community.** Meet other Student Members and make contacts in the industry. Become part of our global community of more than 97,000 infrastructure professionals in over 160 countries.

The ICE has allowed me to build connections that have led me to mentorships, job opportunities, and a broader professional network.

## Graduate Member – GMICE

**Progress your career and get on the fast-track to become a professionally qualified civil or infrastructure engineer - Engineering Technician (EngTech MICE), Incorporated (IEng MICE) or Chartered (CEng MICE) status.**

We'll give you all the support you need to develop as an engineer and achieve success.

### Graduate Member benefits:

- Professional status.** Demonstrate your professional commitment to employers by using the GMICE post-nominal. Enrol on an ICE Training Scheme with your employer or follow our unique mentor-supported training. Get expert advice from our dedicated team of membership advisors and record and track your progress with our market-leading IPD Online system.
- Lifelong learning.** Nurture your development and get access to the ICE's Knowledge Hub containing tailored CPD content, training sessions, and thought leadership content. Access the world's largest civil engineering digital library and keep up-to-date with industry trends through lectures, conferences and publications.
- Connections and community.** Immerse yourself in the ICE's worldwide network through platforms like the ICE's Early Careers Network and LinkedIn communities. Enhance your CV by getting involved with volunteering opportunities, such as becoming an ICE STEM ambassador.
- Wellbeing and rewards.** Explore potential grant opportunities to support your professional journey through initiatives such as the ICE QUEST scholarships. Receive personalised assistance through the ICE Benevolent Fund and access resources for your wellbeing. Enjoy exclusive money-saving discounts and offers through ICE Rewards.

As an ICE Graduate Member, the ICE provides a support structure to achieve my career goals. I have the opportunity to connect with peers across disciplines through seminars and events that grow my network and support my professional success.

## Technician Member – EngTech MICE

**Whether an apprentice or an experienced technician, the ICE Engineering Technician qualification (EngTech MICE) will boost your status at work and open the door to a great career. You could also work towards becoming Incorporated (IEng MICE) or Chartered (CEng MICE).**

Our membership teams are on hand to help you with expert advice, plus we offer support programmes across the world.

### Engineering Technician benefits:

- Professional status.** Demonstrate your commitment to engineering excellence and endorse your skills, knowledge and experience by adding the EngTech MICE post-nominal.
- Volunteering opportunities.** Get involved with a range of exciting volunteering opportunities at our Volunteering Hub. Members can join committees, share their knowledge and become professional reviewers, further learning assessors, exam script markers or STEM ambassadors.
- Lifelong learning.** Access unrivalled support to achieve professional qualification, including advice through our extensive online membership guidance resources and team of membership experts.
- Connections and community.** Become part of the collective voice that influences policymakers and shapes society. Expand your professional community and immerse yourself in the ICE's local and global network.
- Wellbeing and rewards.** Receive personalised assistance through the ICE Benevolent Fund and access resources for your wellbeing. Enjoy exclusive money-saving discounts and offers through ICE Rewards.

I'm incredibly proud to have joined the ICE and achieved the Engineering Technician (EngTech) qualification. It represents the dedication and effort I've put into my development and seeing that hard work pays off is deeply rewarding.

**Harriet Hatton EngTech MICE**  
ICE Engineering Technician Member

# Incorporated and Chartered Member – IEng MICE and CEng MICE

**Becoming an Incorporated (IEng MICE) or Chartered (CEng MICE) Engineer with the ICE will lead to greater success by giving you a competitive advantage, increased status and greater job security and a higher salary – qualified engineers enjoy a £7,000 average annual premium on their earnings. (Source: The Engineer, Salary Survey 2025)**

Receive the best support and guidance all the way through to achieving your goal – in person or online. Our membership experts are always available to help, so you are never on your own.

## MICE benefits:

- **Professional status.** Achieving IEng or CEng status commands respect and gives you international recognition for your knowledge, ability and skills.
- **Volunteering opportunities.** Get involved with a range of exciting volunteering opportunities at our Volunteering Hub. Members can join committees, share their knowledge and become professional reviewers, further learning assessors, exam script markers or STEM ambassadors.
- **Lifelong learning.** The ICE is on hand to support your CPD with a range of essential resources, such as the ICE's Knowledge Hub containing tailored CPD content, training, and thought leadership. Keep current with industry trends and developments through conferences, lectures and publications.
- **Connections and community.** Become part of the collective voice that influences policymakers and shapes society. Immerse yourself in the ICE's local and global network.
- **Wellbeing and rewards.** Receive personalised assistance through the ICE Benevolent Fund and access resources for your wellbeing. Enjoy exclusive money-saving discounts and offers through ICE Rewards.

I was motivated to become professionally qualified to further my career, demonstrate my experience and encourage others to do the same. Being chartered allows me to take on more professional responsibility and helps me to mentor and assist younger team members.

## Fellow – FICE

**ICE Fellowship signals your leadership status in the workplace, amongst your peers and across the globe. As an ICE Fellow, you will be an ambassador of the profession who can shape the future of the institution and industry.**

Applying is straightforward and the ICE provides support on your path to Fellowship, helping you to demonstrate the attributes that make you worthy of the grade.

## Fellow benefits:

- **Professional status.** ICE fellowship is internationally recognised as the highest honour for industry professionals. It signals your leadership experience and qualities among your peers, in your role and across your network.
- **Shaping industry.** Achieve greater influence and harness your expertise. Shape industry and the institution through the ICE Policy Fellows network and by inspiring the next generation of leaders. You will contribute to building more inclusive, innovative and resilient communities.
- **Lifelong learning.** Explore our ICE Knowledge Hub for personalised CPD, training, and thought leadership to enhance your expertise. Access the world's largest civil engineering digital library and stay updated on industry trends through publications.
- **Connections and community.** Engage with your regional team for Fellows network activities and contribute to professional enrichment programmes, while connecting with the ICE's global network of engineers to help influence and shape society.
- **Wellbeing and rewards.** Receive personalised support through the ICE Benevolent Fund and access wellbeing resources. Plus, enjoy exclusive discounts and offers from a wide range of brands and retailers through ICE Rewards.

Being a Fellow of the ICE is a prestigious recognition of my knowledge, skills and experience.

**Dr Ghassan Nounu FICE  
ICE Fellow**

**Recognition. Influence. Giving back.

## Associate Member – AMICE

**ICE associate membership is a validation of your contribution to the built environment. As the home of infrastructure, ICE welcomes professionals from across the industry who may not be civil or infrastructure engineers - from architects to academics, procurement and legal experts, to surveyors and engineers.**

Via your CV and a 500-word statement, you will need to demonstrate your professional experience and commitment to excellence.

### Associate Member benefits:

- **Status.** AMICE post-nominals validate your standing and are globally recognised by employers and your peers.
- **Connections and community.** Build connections with the ICE's global and local networks of infrastructure professionals and become part of the collective voice that influences policy makers and shapes society.
- **Lifelong learning.** Tap into a wealth of resources including industry insight and thought leadership to nurture your professional development.
- **Wellbeing and rewards.** Receive personalised assistance through the ICE Benevolent Fund and access resources for your wellbeing. Enjoy exclusive money-saving discounts and offers from a variety of brands and retailers through ICE Rewards.

AMICE is a good way to demonstrate my professionalism. It's widely recognised and membership enables me to keep abreast of the latest civil engineering news and innovations, as well as attending and contributing to the network of local groups. I see a lot of value from being an ICE member.

Malcolm Cattermole AMICE  
ICE Associate Member

## ICE and your organisation

**Organisations value the ICE's commitment to delivering professional excellence.**

We work closely with colleges, universities and industry employers who share our commitment to professional excellence and lifelong learning, helping you to stay ahead of your competitors.

**Organisations gain a real competitive advantage by partnering with the ICE:**

- Our professional qualifications demonstrate the competence and expertise of your workforce, giving clients confidence in your ability to deliver projects.
- Distinguish your organisation as a class-leader in professional development. Your commitment will aid the recruitment and retention of the brightest minds.
- Unparalleled knowledge resources support our members' lifelong learning and ensure your organisation is at the forefront of industry innovation.
- As part of our global built environment community, members share best practice to help the ICE lead the debate on the big issues in infrastructure.

Find out how the ICE can help your organisation:

[ice.org.uk/employers](https://ice.org.uk/employers)

Our clients always want to know the ICE professional qualifications of the staff we are proposing for a project.

Kintibye Idris CEng FICE  
Director – Civil Infrastructure –  
Dubai & Northern Emirates, AECOM

## Take your next step

**Discover your ideal membership option and get support to help you reach your goal.**

Our membership experts support built environment professionals around the world and will advise you on your next step to ICE membership and professional qualification.
